

The Victorian Large

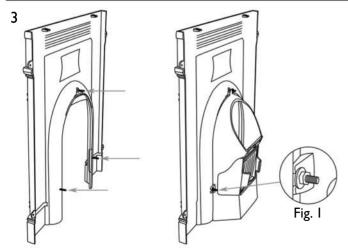

Remove the Firebrick Retaining Plate by removing the $I \times M6$ Bolt, Washer and Nut.

THIS STEP IS NOT REQUIRED FOR SOLID FUEL USE

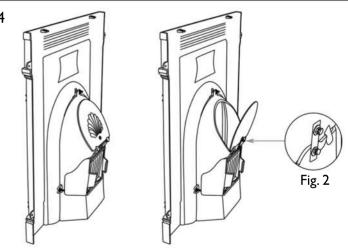

Lay Fireplace Back down on level ground. Position Firebrick in place and then insert I \times M6 Bolt, passing through Washer and Nut, into the hole just below the Firebrick. Insert Grate into the groves on the Fireplace Back, passing the fixing lug over the M6 Bolt. Secure in place by tightening Bolt.

THIS STEP IS NOT REQUIRED FOR GAS USAGE.

Insert the 3 M6 Studs into the back of the Fireplace Fascia. Attach Fireplace Back to the back of the Fireplace Fascia, ensuring that the M6 Studs pass through the fixing brackets on the Fireplace Back. Secure and tighten using 3 M6 Washers and 3 M6 Nuts, as Fig. I.

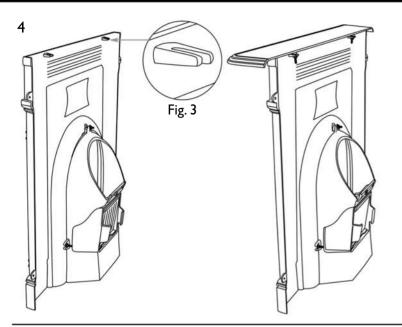

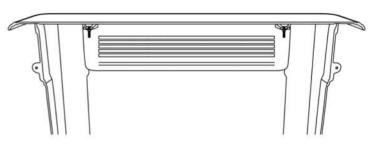

Solid Fuel Usage: Rest the Damper Plate onto the grove on the back of the Fireplace Fascia.

Gas Usage: The Damper Plate must remain fixed open for Gas Usage by using the Damper Plate fixing Kit. Screw M6 Nut fully onto M6 Bolt and lastly M6 washer x2. Attach Damper Fixing Plate as fig 2.

The Victorian Large

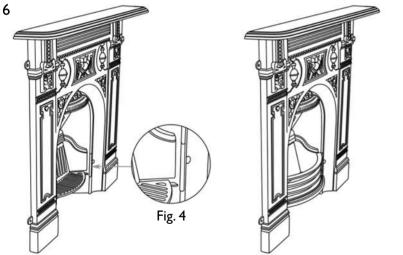

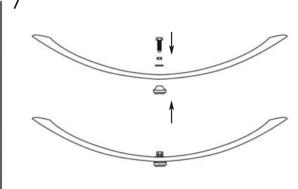

Rear View with Shelf attached

Lay Shelf upside down on floor. Loosely insert $2x\ M6$ Studs, firstly passing through $2x\ M6$ Washers. Place $2x\ M6$ Nuts onto the ends of the $2x\ M6$ Studs.

Attach shelf to Fireplace Fascia passing the 2x M6 Studs through the fixing lugs (Fig. 3). The washers should be below the fixing lugs. Tighten and secure with 2x M6 Nuts.

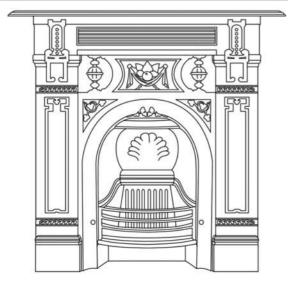

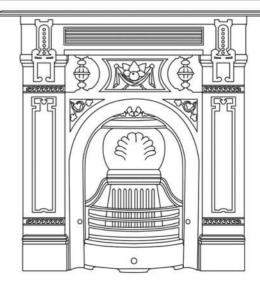

Slot the Bars through the groves on the front of the Fireplace Fascia, as fig. 4.

Attach the Ashpan Handle to the Ashpan using Ix M6 Bolt, Ix M6 Washer and Ix M6 Nut.

To complete, place Ashpan Cover below Grate and Bars on the front of the Fireplace.
